**Re: Professional Reference for Wind Farm Civils**

To whom it may concern,

I can confirm that Wind Farm Civils have been employed on several wind farm projects in Ireland where Wind Prospect Ireland has been acting as the Engineer or Employers Representative under the construction contract. We have found Wind Farm Civils to be a competent and reliable civils contractor when constructing site roads, turbine foundations, turbine hardstandings and substation civil works.

Wind Farm Civils are on our selected tenderer list and we expect to work with them again in the future.

Please feel free to contact me should you require any further information.

Yours sincerely,
